

The Church – The Discipline of the Church

Thesis:

Introduction:

Lessons like this are like insurance policies.

We have them, we know what is in them, but we hope to never have to use it.
However, there are times when this action must be taken.

I. Some in the church in Corinth were living in sin (5:1-2).

The sin was so severe that the Gentiles would not even allow such sin.

II. Paul tells the church that they are to remove the one with sin from the body (5:3-8).

III. Members of the Lord's church are required to have a higher standard of living than those who are outside.

This does not mean that we should have more money; but we should have higher morals and values.

Conclusion:

II Cor. 7:8-12?
